

**BUSINESS OF THE CITY COUNCIL  
BONDURANT, IOWA  
AGENDA STATEMENT**

Item No. 15d  
For Meeting of 04/06/2020

**ITEM TITLE:** Discussion and Consideration of Staging Plan Amendment for the SW Corridor Project

**CONTACT PERSON:** John Horton, Public Works Director

**SUMMARY EXPLANATION:** The SW Corridor Project is progressing right on schedule. With this being said and in light of the current situation everyone is dealing with the Covidid-19 pandemic. MacAninch is requesting to be allowed to proceed with Stage 6 which is the tie-in piece between the newly constructed intersection of 32<sup>nd</sup> St. SE and Grant Street S. and the existing 2 lane pavement just north of the East entrance into the Amazon site.

They ensure us that they have enough staffing to complete Stage 6 and Stage 2 concurrently. This would mean that only Grant Street South from Hubbell Ave/ 15<sup>th</sup> St. SE intersection South to the newly constructed intersection of 32<sup>nd</sup> St. SE and Grant St. S. would remain closed to thru traffic for approximately another 30 days which would be around May 18<sup>th</sup>, 2020.

We have been experiencing much lighter traffic volumes with the current situation, and Staff believe that this will allow to be able to complete the project with minimal impact to commuter traffic
